

SNACK TIME: DRINKS

Instructions: Start speaking in Spanish when helping your child/children with drinks. If you know the phrase in Spanish, say it! If you say it English first, and then remember you know it in Spanish, say it in Spanish right after! Avoid correcting or pushing your children into speaking. Make it fun, and they will want to join in and have you help them with the phrases. **Of course, do not use any phrases that would hurt your child, like anything relating to food allergies.
